BOARD OF TRUSTEES.

A Sensible Protest from the Teachers that Proves Effectual.

The school trustees met last night at 8 o'clock at the City Hall, all the members being present.

The minutes of the 5th of August were adopted.

Mr. Hayward objected to the manner in which the late meeting had been called.

COMMUNICATIONS.

From S. D. Pope, Esq., Superintendent of Education, stating that permission had been obtained to engage an assistant teacher for Johnson street ward school for three months at $25 per month. The secretary also stated that he had received five applications for the position.

Received and filed.

From Mrs. Leigh, asking for an increase in the salary of her son as janitor of James Bay school. Deferred.

From Dr. Ash, explaining causes of Miss Story's absence from school for a few days.

The secretary also read a letter from the teachers, as follows:

VICTORIA HIGH AND PUBLIC SCHOOLS,
August, 1885.

TO THE SECRETARY OF SCHOOL TRUSTEES:

SIR,—We have tried to carry out all and every wish expressed by the trustees, but we find the resolutions of the board delegating the infliction of corporal punishment to the principals a very serious obstacle to the maintaining of discipline and satisfactory results in our work. Some of the trustees have been appealed to privately and the chief difficulties encountered in trying to carry out the point of the resolution have been explained. We now appeal to you as a board to reconsider the matter.

From the morning the resolution became public the pupils have had the feeling that the teachers will not be sustained in punishing them, and they have not been slow in showing it. The home lessons are not as carefully prepared, nor is the obedience as prompt as it should be—pupil and teacher both feeling that there is a certain restriction that emboldens the one and cripples the other.

We have very few acts of what may be called real wickedness; our troubles are small annoyances, that can be best attended to at the moment of detection and by the teacher who sees the act and who is acquainted with the general conduct and disposition of the pupil committing it. Corporal punishment rarely follows a trivial offence, but a succession of them. Sending a pupil to the principal for punishment greatly interferes with the work and time of the school.

What we respectfully suggest is that teachers have full control of their own department in the way of discipline, and the methods and means of obtaining it.

Reporting very serious offences to principals, and instituting thorough investigations before punishment, is quite right, but it is in regard to the small matters that the difficulty meets us.

Hoping you will view our representations as they are given for the best interests of the schools.

We are, yours respectfully,

John N. Muir,	E. Oberhaus,
J. E. Armstrong,	J. A. Halliday,
J. H. Thain,	E. Carmichael,
L. A. Barron,	Agnes D. Cameron,
Emily J. Gardiner,	Lucretia Horton,
Arch'd. Dods,	L. M. Reid.

Mr. Braden and Mr. Hayward spoke in favor of the resolution adopted by the board. The Secretary read this resolution, which threatened instant dismissal of teachers, except Principals, who administered punishment.

Messrs. Harris and McMicking agreed with the teachers' view of the question.

Mr. Heisterman was opposed to punishing for delicate lessons.

Mr. Higgins was opposed to corporal punishment, but if it was to be inflicted it should be by the teacher having charge of the pupil receiving it. He moved, seconded by Mr. Braden, that the communication be received and filed, and that corporal punishment be abolished in the schools. On being put, all the members of the board, excepting the mover and seconder, voted against it, and it was lost.

Moved by Mr. McMicking that the resolution adopted on May 12th be rescinded. Carried on the following division: Yeas—Messrs. Higgins, McMicking, Heisterman and Harris. Nays—Messrs. Braden and Hayward.

Mr. Heisterman moved that no children be whipped for failure in their lessons. Seconded by Trustee Higgins and lost. Yeas—Messrs. Higgins and Heisterman. Nays—Braden, McMicking and Hayward.

The Chairman called attention to the over-crowded condition of three of the divisions.

Mr. Heisterman moved that the City Council be asked to build a sidewalk on Kings Road. Carried.

In committee of the whole Mr. Wright's appointment was confirmed, and the board adjourned at 10 p. m.

Base Ball in Portland.

The second game of base ball in Portland, as we stated last evening, resulted in a victory for the Amities. The crowd present was the largest that was ever drawn together to witness a game of ball in that city, fully 1500 people, one-third of whom were ladies, being attracted to the field. The Amities failed to score a single run in the first five innings, but the sixth and seventh changed the aspect of things, five runs being made in each. At the finish the Victorians were one ahead and an innings to spare. The players, and a large majority of the excursionists, returned home this morning, and all seemed delighted with their trip. The Amities especially speak in warm terms of the courtesy shown them by the Portland boys and the hospitality of the citizens generally. The following is the score:

ENGLAND TO VICTORIA

In a Fortnight—Winter and Summer Side by Side

J. C. Simpson, C. E., in charge of the Selkirk division of the C. P. R., writes: On our first works were the biggest bridges on the Canadian Pacific Railway—one, 250 feet high, being the highest wooden bridge in the world. Now I am on the longest tunnels on the line—one of solid rock, the other earth and boulders, the latter very hard to work. The rock tunnel is just on the opposite side of the river from a slide, down which the snow rushes with terrific force, crosses the river and is thrown two hundred feet up the steep bank on this side. The snow from this slide still forms a bridge with a lofty arch, through which runs the Illecillewaet river. At the time of writing the snow is still about eighty feet deep at the foot of this slide, so you can try and imagine what it feels like to stand on eighty feet of snow with only pants, shirt and shoes on, almost melted with the heat, the thermometer marking one hundred degrees in the shade. Near our camp is the most beautiful flower garden I ever saw. It is a cliff, which rises in a succession of little ledges some three hundred or more, each ledge being completely covered with lovely flowers of many different colors, making altogether a glorious sight. These tunnels are the last work of construction of the line, and we are going to build a temporary line around them, so as to connect the rails with the Pacific Division. The line will be completed in October and the Pacific Coast can then be reached from England in a fortnight.

A GAP OF 193 MILES.

Rapid Progress of the Work of Construction—Harvest Prospects in the Northwest.

A Montreal dispatch of the 17th says: Van Horne, general manager of the C. P. R., received word to-day that the Shuswap summit had been reached from the Pacific end, and that 35 miles of the road were laid in ten days. This leaves a gap of 100 miles between the ends of track, all of which is graded and the bridges will be finished in about two weeks. The line between Montreal and Winnipeg will be opened within 30 days. Mr. Van Horne speaks in glowing terms of the harvest in the Northwest. Over 100,000 bushels of wheat will be marketed at Moose Jaw station alone. The Galt road from Dunmore to Fort McLeod will be open for traffic at the end of this week.

A Visitor's Opinion.

Mr. W. Laurens returned to Portage la Prairie from this province and in conversation with a reporter he gave it as his opinion that British Columbia is naturally adapted for fruit, and that as soon as the timber is cut down and replaced by orchards there will be an immense trade done in this line, and it will be able to supply the prairie provinces. In cattle the local trade is amply supplied by home production at present, but as the population increases, the resources of the Northwest will be looked to for a supply in this and other articles. Mining, lumbering and fishing are the principal industries of the country, but they are yet in their infancy. Mr. Laurens is of the opinion that the C. P. R. will open up a big trade with the Australian colonies and will get all the passenger traffic between the old countries and that place, but the palmy days of the line will not commence for a few years to come.

Grain From Portland.

It is asserted that the bulk of the grain of Oregon will go east this year overland unless the business men of Portland are successful in securing better rates over the railroads. "The newspapers at all points east of Ainsworth announce that at the present freight rates wheat can be sent across the continent to Duluth or Minneapolis and disposed of at from 6c. to 10c. more per bushel than can be realized for it by shipment to Portland." According to the same authority, a new competitor is also appearing in the upper Willamette valley. The Oregon Pacific railroad is offering to ship wheat from Corvallis to San Francisco for $4.50 per ton, and the steamer Coos Bay has been loaded with an experimental cargo. If this experiment proves successful, considerable wheat which has heretofore been compelled to come to Portland for sale or shipment may go directly to San Francisco.

Annual Gathering in New Brunswick, etc.

The Annual Gathering of the Natural Caledonians and St. Andrew's Societies will take place at New Westminster on Wednesday, 2nd September, 1885. A programme of games for horses, competitors, in the evening a grand ball in drill shed. The steamer Rideau will leave Granville wharf at 8 o'clock a.m. and return at 6 o'clock p.m. Tickets for the round trip, 50 cents; children under 12 years to and from 25 cents.

THE WIDE WORLD.

THIS DAY'S DESPATCHES

Death's Night Mower.

Special to THE TIMES.

TOULON, Aug. 25.—There have been 36 deaths from cholera here in the past 24 hours. At Hyeres there have been four deaths from cholera on board the French squadron.

There were 37 deaths in the city yesterday.

The French man-of-war Bayard, carrying the remains of the late admiral Courbit from Tonquin arrived at Hyeres, 12 miles east of this city to-day.

MADRID, Aug. 25.—King Alfonso will visit the cholera hospitals to-morrow. There were 4701 new cases of cholera and 1453 deaths from the disease reported throughout Spain yesterday.

MARSEILLES, Aug. 25.—Sixty-seven deaths from cholera occurred here yesterday.

TOULON, Aug. 25.—Thirty-four persons died from cholera in this city yesterday.

The Queen at Balmoral.

Special to THE TIMES.

PERTH, SCOTLAND, August 25.—The Queen arrived here at noon to-day, en route to Balmoral. She was accompanied by the Princess Beatrice and Prince Henry of Battenberg. The Royal train was preceded by a pilot engine. At the station, the party, consisting of twenty-five persons, alighted from the train. The building was kept clear of spectators, none but the officials of the line and those accompanying the train being allowed to remain in the station, which was elaborately decorated for the occasion. Balmoral will be gay during the sojourn there of the Queen.

Many of the nobility are now in the north enjoying sporting amongst the hills. Grouse are said to be very plentiful and large bags are being made daily.

Interment of the Crimes Act

Special to THE TIMES.

DUBLIN, Aug. 25.—The Nationalists of Cork and Waterford assembled at Knockanore to-day and interred a coffin containing a document representing the Crimes Act.

The Ursuline Convent, at Ballytruckle in the county of Waterford was burned to-day. All the inmates escaped.

Spain Getting Excited.

Special to THE TIMES.

MADRID, Aug. 25.—An anti-German demonstration was begun in Madrid today at four o'clock. Four thousand persons had assembled on the Prados, with banners and other emblems. Speeches were made in Spanish and French, denouncing Bismarck's action in annexing the Caroline Islands. The chief speaker was a Spanish colonel in full uniform. No insulting references were made to Germany, but the rights of Spain were fully proclaimed. The procession marched through the streets, arousing great enthusiasm. Opposite the prime minister's palace cheers were given for the premier, but he did not appear and the cheering changed to hooting and whistling. Several men scaled the balconies and planted the national flag amid a storm of enthusiasm and cheers. The clubs, including the military and Arcete, displayed banners. The procession was headed by the democratic leader, and did not pass through the street on which the German legation was situated. At a meeting of the military club, Gen. Salamanca presiding, it was unanimously decided in the excitement to expel the German honorary members.

The Entanglement of Dilke

NEW YORK, Aug. 19.—The Post London Cable: Sir Charles Dilke's affair is settled until the divorce case is heard, by the action of the Chelsea Liberal committee last night. One hundred and fifty members were present. The resolution of confidence in Dilke was so warmly received that nobody spoke more than a few minutes in its support. A telegram expressing confidence and support was sent to Dilke at Mr. Chamberlain's house in Birmingham. This action was a foregone conclusion. Dilke has been too good a servant to the Liberal cause to be dismissed on charges circulated chiefly by his political enemies. I am assured that the petition in the divorce suit contains full details, with names and places of alleged meetings between respondent and co-respondent. It is stated that Mr. Crawford is determined to bring the case into court, but the contrary is more probable.

Eastern Canada News.

The election contest in East Durham is being held to-day, to fill the vacancy caused by the death of the lamented Col. Williams. The constituency is thoroughly Conservative, and the election of Mr. Ward, Ministerialist, is a foregone conclusion.

Dr. Samuel Allison, of Caledon East, is in the field against the Hon. Thomas White, Minister of the Interior. Mr. White will be elected by an overwhelming majority.

Mr. T. Coleman, the well known taxidermist, Ottawa, died very suddenly from the effects of a cancer in the throat.

A case of the monotonity of life is experienced by the Winnipeg Free Press, which is an extremely sad one. On the 10th of last June, Mr. F. H. Lewis, a merchant of Battle Mass, was married to a young lady in Ontario, Miss Minnie L. Hopkins. With her husband she came to his home in the Northwest. On Sunday the 17th inst., the young lady died, after an illness of a few weeks, caused partly by fatigue. Her husband is about from Carnegie's office, where he was employed, to Winnipeg, to Dakota, where he was appointed to a position in the office of the Chief Engineer of the Canadian Pacific Railway. Mr. Lewis left Winnipeg on Tuesday night, and on Wednesday morning he was married to a young lady in Ontario, and on Sunday morning he was buried in the Winnipeg cemetery. The young lady died in the house of a friend, and Mr. Lewis's sister, who

NOTES AND COMMENTS.

MAIL advices from China confirm the report that a treaty had been concluded between Russia and Corea. The terms of the treaty are very advantageous to Russia.

GABRIEL ENERY, a soldier of the Napoleonic wars, died last week in the canton of Valois, Switzerland, aged ninety-five. He was in all Napoleon's campaigns.

ANDREW CARNEGIE'S English newspaper syndicate is said to have been eminently successful, having sold MR. PASSMORE EDWARDS the London *Echo* for $500,000, which it bought from him at $200,000 two years ago.

WINNIPEG is to have a new daily paper to take the place of the *Times*. W. THOMPSON, formerly of the *Times*, ALBERT DENNIS of Halifax, and others furnish the money. The paper will be independent in politics.

THE ambassadors from Germany, France Spain and Russia, and the first secretaries of the German and Russian legations, are occupying bachelors' apartments at the Berkley and Whitehall, in Newport.

LORD IDDESLEIGH, First Lord of the Treasury, speaking at Exeter last evening, said he could not say that the Conservative horizon was entirely unclouded, but their position had improved, especially as regards Ireland.

RIGHT HON. JOSEPH CHAMBERLAIN is strengthening his wing of the party, and his friends openly boast that he will be the leader of the Opposition of the new House, with a chance of being strong enough to defeat the Tory Administration.

THE English government will utilize the material intended for the Suakim-Berber railway in erecting forts at Chatham, Portsmouth and Plymouth, which will also be connected with the great railway lines in order to provide ready transportation for troops in case of necessity.

THE widow of MARK PATTISON, who is going to marry SIR CHARLES DILKE, is a lady of culture and brilliancy, and author of "The Renaissance of art in France." She was EMILY FRANCIS STRONG, daughter of an officer in the Indian service. With PATTISON she was wretched.

THE Belgian officer in command of Kaemia, on the Congo, refuses to recognize the decision of the Berlin conference, that the western bank of Lake Tanganyika shall form part of the frontier of the Congo state, and has proclaimed himself emperor of Tanganyika.

AT a German given recently by MRS. GEN. H. GRANT GIBSON at the Washington barracks, MISS LA COSTE, one of the most accomplished guests, wore a dress richly trimmed with point d'Alencon worn by her great grandmother at the court of MARIE ANTOINETTE.

MISS MARY ANDERSON will devote the whole proceeds of her performance of Rosalind at Stratford to the Shakespeare memorial fund. The prices of admission will be doubled for the occasion, and the reserved seats are in such demand that they will be balloted for.

AN Ottawa correspondent revives the report that SIR CHARLES TUPPER will enter the Dominion cabinet as Minister of Finance, and that Deputy Minister COURTENAY, who desires to live in England, will be made Canada's permanent financial agent there. MR. COURTENAY is a brother of a late member of the GRANDVILLE Government, MR. LEONARD COURTENAY, M. P. for Liskeard.

THE Philadelphia *Press* reports MR. GEORGE W. CHILDS as saying that GEN. GRANT had made a will about a year ago at Long Branch, and that WILLIAM A. PUNNERSTON, a lawyer of that city, had drawn it up—MR. CHILDS and REV. DR. MORRIS, rector of St. James Protestant Episcopal church of Philadelphia, being the witnesses of the will. MR. PUNNERSTON declined to speak of the matter until Monday, saying that the will may have been destroyed.

"WHAT do you publish so and so for?" is a question often asked of newspaper men. Get to be one of the fraternity yourself, and if the Wilmington turpentine market is the record of births and deaths is omitted from an edition, count how many fellows ask you next day about it. A paper like the TIMES is read through and through; if not by any one, surely by an aggregation of somebodies.

POINT ELLICE BRIDGE.

The government organ is in high glee this morning over the Point Ellice bridge affair. It labors under the delusion that the government having succeeded in procuring a bridge from a specification furnished by a contractor at a figure somewhat less than other contractors, who likewise supplied plans and made tenders thereon, that a great bargain has been secured the province. We are assured that had the government called for tenders on the plans it decided on accepting, several thousands on the figures which the organ alleges the bridge was built for could have been saved. It may be quite true that the work was executed in accordance with the plans and specifications furnished the several local contractors who supplied part of the material. It is no fault of the Albion Iron Works if the iron portion is considered to be too light and entirely out of keeping with the rest of the work. Neither is the party who supplied the wood work to blame for the lightness of much of the timber that should have been heavier, nor is it the fault of those laying the joists and flooring that thorough workmanship was not insisted on. In short, it does not require a bridge expert to demonstrate the fact that the work is any thing but first class or workmanlike, for the workmanship at once speaks for itself. It is only too apparent that as there was no superintendent or overseer on the work, acting for the government, the grossest carelessness is visible in many places in putting the work together. The flooring of the bridge as well as the railing is up and down like a camel's back—yet doubtless perfectly level in the eyes of the government. In other places nails are only half driven home, while screws in many places were driven their full length with the hammer, the use of a screw-driver being dispensed with. It is said that before the government accepts of the job the defects we have named will be rectified. When this is attended to no doubt others will become apparent. Before the subject is shelved we think it can be shown that the tinkling of the *Colonist's* cymbal was entirely too premature.

HIGHLY GRATIFYING.

MR. G. W. YARKER, general manager of the Federal bank, who has just returned from a visit to England, thus speaks of the improving credit of Canada and Canadian securities in the London market:—"One of the most encouraging financial features to Canada is that the great banking house of BARINGS, after, as I was informed, full consideration, unhesitatingly undertook to bring out the issue of (£3,000,000 stg.) Canadian Pacific railway 5 per cent. bonds at the company's own price, 95, and so great was the demand that the firm closed the list at 4 o'clock on the second day of the publication of the prospectus. It is not satisfactory exclusively to the Canadian Pacific railway that their securities have at last got a solid footing in London and attracted the attention of such an eminent banking house, but the fact is brimful of importance to every Canadian interest in Great Britain, and it does not require a great reach of imagination to foretell that the balance of the issue (£4,000,000 stg) held by our government as security for advances need not necessarily be locked up very long in the vaults at Ottawa. It was also gratifying to learn that the £4,000,000 sterling government 5 per cent. bonds were subscribed for three times over, and I heard that, although a leading Canadian monetary institution had the public spirit to bid for a round million sterling, it did not get a pound, owing solely to the outbidding of the investing public."

AMERICAN CATTLE IN ENGLAND.

The transportation of Canadian and American cattle to England is arousing the British trade observers to behold new foes in competition. A recent shipment of one hundred head from Wyoming, by way of the lakes from Duluth, was made. These cattle were driven to Wyoming from Oregon. The *British Trade Journal* states that the dead-meat trade has proved a failure to all intents and purposes. Not only does the meat lose in quality, but the weight shrinks by more than 6 per cent. The live-cattle trade, however, it regards as a far more serious matter. The Wyoming territory alone sends from its borders nearly enough meat to satisfy the requirements of London, and now that the northern system of railways is finished, transit is comparatively an easy thing. Three-year old bullocks, weighing 1,000 pounds each, can be bought at railroad points in Montana and Dakota for $31.40 per head. Transportation from Wyoming to London adds $22.80 to this figure, and at these rates "it will be found that in this trade of supplying London with cattle from the great prairies of the northwest there is an enormous and profitable field for enterprise." This low figure is arrived at by direct shipments, without the intervention of brokers, while cattle which are taken from Banks to Smithfield pass through half a dozen hands before they reach the retailer.

THE papers are estimating the cost of Gen. Grant's funeral. Undertaker Merritt's bill was $10,655, the four physicians got $1,500 each, and the temporary tomb cost $7,000. Besides this must be reckoned for the work of making and putting up decorations, $110,000; paid for seeing the procession, $1,000,700, and estimated cost of monument, $500,000, presenting a grand total of $2,214,355. New York was, pecuniarily, a heavy gainer by the event, as the estimated amount of money left there by outsiders was $5,000,000.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but in more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S

Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured chronic cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Ayer's Cherry Pectoral,

GOLD AND SILVER.

For some time there has been a vigorous discussion in the columns of the Manchester, England, *Guardian* over the relative value of gold and silver. MR. SAMUEL SMITH, M. P., finished the discussion with a long article, in which he questioned the prevailing views on the wisdom of maintaining the gold standard. Since then he has introduced a motion into the House of Commons that this be included in the subjects to be considered by the Royal Commission on the depression of trade. On July 28 a special meeting of the members of the Manchester Chamber of Commerce was held to consider this question. The petition for the meeting was signed by forty members and by some of the largest and most influential firms in Manchester. The resolution introduced was as follows: "That the present position of the export trade of the United Kingdom, carried on with silver-using countries, is in such a state of uncertainty that the directors of this chamber be requested to ask the members of Parliament for this city, and also other members of Parliament whom they can influence, to support MR. SAMUEL SMITH, M. P., in his motion in the House of Commons to get a select committee to enquire into the present relative position of gold and silver in their uses as money throughout the world." The need for such investigation was the more insisted upon since nine years have elapsed since the last parliamentary inquiry into the position of silver, and nearly all the evidence then collected and many of the conclusions of the committee have been rendered valueless by subsequent experience. In order not to commit the meeting in any way on the general principles of monometallism an amendment was introduced: "That without committing the chamber to any opinion on the question of bimetallism, the directors be recommended to give support, etc." When it is remembered that but five years have elapsed since the same chamber committed itself to doctrines of the most positive nature, it will be rightly inferred that new forces are at work. One of the resolutions of that year read thus: "That the temporary inconvenience to buyers of exchange in silver-using countries, being an exaggerated form of an ordinary incident of trade, should be met by the usual remedies through terms of contract; and that in any case the removal of such temporary inconvenience would be too dearly purchased by any measure which would destroy the simplicity and stability of our national currency."

IT is understood that during recess LORD SALISBURY will appoint a committee of experts to examine the books of all the government officers, and a whole army of deputy heads, chief clerks and contractors are said to be shaking in their boots as to the certain results of a thorough investigation.

IT appears that the authorities of the Finance department now conclude that the forged bills in circulation were struck off from a form taken from a plate in use by the department and transferred to steel. Large numbers of these notes are in circulation in the west, and in the states. Every effort is being made to secure the forgers and the utterers of these bills.

A Hindu lady has been making a remarkable contribution in the London *Times* to the discussion going on about the status of her sex in India. Every woman on the death of her husband, even a child husband, is condemned to perpetual widowhood. A man can marry a second wife at the death of his first one, and any number of wives at one and the same time. All the boys and girls in India are betrothed indissolubly almost as soon as they are born, and are brought together in physical union by the time they have completed their 12th or 13th year. At the age of 8 at latest a husband must be found for every girl.

[Detroit Free Press.]

"I heard a sermon de odder Sunday," said Brother Gardner, as he rose up and nodded to Samuel Shin to turn down the lamps a little and economize on oil—"a sermon by a white clergyman dat I can't make fit me nohow. He 'lowed dat de world had grown wicked at de rate of 10 per cent. per y'ar for de last five y'ars, an' incidentally announced dat de increase of Bibles was 600,000 per y'ar, an' de increase of preachers about 12 per cent. He was pained to disliver a growin' lethargy in de cause of religun, but announced dat 3,544 churches war built last y'ar. He was made sad to hear dat crime war increasin' all over de world, but degared dat twenty-two evangelists had been steadily at work eetkin' to turn people from de error of deir ways.

"I can't jist make it out. If de world am growin' wicked in de face of all dat Christianity am doin' dat's sumthin' wrong. If 4,000 new churches and 2,000 new preachers bring about a feeling of lethargy on de subject of Christianity, we'd better build no' churches and fewer churches. If Moody and Sankey am increasin' crime instead of reducin' de record, dey had better be called in.

"De fack am, my friends, dar was no call for dat a sermon, and no partickler cause to alarm de world. True Christianity am held in de same guarantee as a hundred y'ars ago, but Christian hypocrisy am easier to see few. We am placed here as free moral agents. If one man feels dat he can't be saved without a certain amount of singin' an' prayin' an' repentance he should be allowed his way. If another man holds dat he kin occupy a front seat at de circus widout a crime bein' charged up to him by de recordin' angel, you has no right to pitch into him. If religun am not a matter of conscience, what am it?

"I want you to go to de circus, but doan' scandalize your nayber.

"I want you to go to de theatre, but doan' use money dat should go to pay on house debt.

"I want you to stay an' dance, but doan' skip Thursday evenin' prayer-meetin' to do it.

"I want you to keep your eyes open in a hoss trade, but doan' let de contribushun box pass widout your dime.

"I want you to sympathize wid de heathen of Africa, but keep a little money by you for de heathen in your own nayburhood. Let us now proceed to attack de blames of de meetin'."

UNFINISHED BUSINESS.

A few weeks since Judge Marrowfat Thompkins, of Virginia, sat down in the barn to write out an application for admission to the Lime Kiln club. A storm arose and he was killed, and his widow demanded $2,000 damages of the club. She contended that if he had not been engaged in writing the application he would have been down cellar killing rats, and that the club was indirectly guilty of his death. The matter was passed to the finance committee and the chairman now announced that the claim would not be allowed. He had received a hint that the matter could be settled for a No. 22 corset, a three-dollar hat and a circus ticket, but he should refuse to establish a precedent.

LOST AGAIN.

The librarian submitted his quarterly report, showing the number of almanacs under his charge to be over 13,000, and to cover every year since 1836. There was hardly an evening that the patrons of the library did not discuss the subject of astronomy, and he would again recommend the purchase of a full-sized skeleton. He would prefer that of a murderer, but wouldn't be captious. The bones of the lawyer who defended the murderer, and almost made the jury believe him a very much abused angel, would fill the bill.

Whatstone Howker seconded the motion. He had a great curiosity to see where the banker made his nest and hatched his young.

Trustee Fullback was also in favor of the purchase. He wanted to locate the spot where the cucumber colic got in its work. Elder Toots and several others favored the idea, but Brother Gardner struck the triangle and said:

"Anatomy might go well wid blacksmithin' or carpenter work, but I doan' see how it would help whitewashin'! De matter will be laid on de table, an' we will sing our closin' ode an' percolate homewards."

Couldn't Wait.

[Youth's Companion.]

Scotch divines were formerly much more in the habit of making extraordinarily long and comprehensive prayers in public worship than they are now, and many incidents are related that show wonderful powers of endurance on the part of the Scotch congregations. Sometimes, however, their overtaxed patience gave out, as was the case when one Walter Jackson was called on to officiate at a funeral at Hallington.

The company had assembled in the barn to get some refreshments. After the meal was over, Mr. Jackson was asked to return thanks. He began in right good earnest with the fall of Adam, and was going down from one great doctrine to another, till patience was exhausted.

Significant looks passed among the mourners; one by one they deserted the barn, and the funeral procession started for Newland's churchyard. When Walter came to a close and opened his eyes, he found himself alone, and on inquiry discovered that the procession was fully a mile on the way.

The Buffalo Express has discovered that Dana of The Sun was rejected by the senate as a brigadier in 1863. This accounts for the war hanging on two years longer.

The musicians of England have held a convention to agree on a standard pitch. We ought to have one in this country, and have a law to enforce it at camp meetings.

Says the New Orleans Picayune: "While medical students are being harshly condemned for robbing graves, it is forgotten that the students intend to fill them up again when they go into practice."

The seventeen-year locusts haven't bitten anybody or anything in this state yet, but, confound 'em, they must stop kicking down walls and fences or the farmers will call for a rebellion. There is a limit even to a grasshopper's fun.

Chicago Ledger: No one ever heard of a female restringuish. When a woman talks all the vocal machinery is in motion.

Exchange: Professor Blacky calls a primrose "a coralliferal diosyclodonous oxygen," but he wouldn't do it if the primrose was able to hit back. Some men are terribly overbearing toward the weak.

"Gen. Grant may get nolled and Judge Waite may be 'held up' again, but I want to sell my house to Hoffner, any how. It contains 4 room, 2 closet, a pantry and, most of the time, my wife and I'm in the grand opera cellar. No bill 'lick me." There is a mild smile the house and any quantity of country and pure air in the immediate vicinity. It is a close house. If you want to buy, come and 'ed us reason together.'"

What Price Milk Costs.

[Puck.]

City Lady—Mr. Hayseed, I shall send my nurse girl to you for milk every morning. How much do you charge a quart?

Farmer—Five cents.

City Lady—You must give her good pure milk.

Farmer—That'll be eight cents a quart.

City Lady—And I should like my girl to be present at the milking.

Farmer—Seven cents. Mebbe she'll have to change twenty-five cents a quart for her.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY.

Victoria, Tuesday, August 25, 1885.

CITY AND PROVINCE.

—The rifle matches will begin at 10 a. m. to-morrow at the Clover point range.

—Before purchasing Real Estate or insuring your life, see Reed Bros.

—The San Francisco steamer did not bring any Chinese.

—The Hotel de Heichesen has sixty-six boarders to-day.

—The Four-Mile-House, Craigflower road, was burglarized on Sunday morning, and $5 in silver taken from the till.

—The freight list of the Olympian to-day consisted wholly of circus paraphernalia.

—"Alberni's Rights," and "An Old Columbian," will receive due attention in a day or two.

—Mr. Newton H. Chittenden has reached Winnipeg. He went over the C. P. R. line from Port Moody.

—Choice logs at Semiahmoo Bay are quoted at $5.50 to $6 per thousand. The market is dull.

—The Oregon State Fair will be held at Salem this year, opening on the 21st Sept., and closing on the 26th.

—Mr. Van Horne has assured the Montreal press that the last spike will be driven in October.

—Mr. H. P. Osborne, who was drowned in Toronto a few days since, was a brother of Mr. Osborne, Supt. of government telegraphs.

—Our Whatcom friend thinks that the C. P. R., after sucking the juice from the British lemon, may determine to deal with a connection to Bellingham Bay.

—Tenders are called for the erection of a brick church on the Gorge road. The new church is rendered necessary by the growth of the Methodist church and congregation in this city.

—A public meeting will be held at Harmony Hall to-night when important anti-Chinese resolutions will be submitted. Every man who is interested should be present.

—The Parisian, on her way from Liverpool to Montreal, has on board Prest. Stephen, Hon. Donald A. Smith, Hon. Henry Stafford Northcote, of the Canadian Pacific Railway.

—The Hon. Mr. Caron, Minister of Militia, who has had the honor of knighthood conferred on him by the Queen, will proceed to the Northwest in a few weeks and extend his trip to this province.

—The Queen of the Pacific which arrived this morning, brought in all 890 tons of freight, distributed as follows: Victoria, 820; Port Townsend, 43; Seattle, 365; Olympia, 27; Steilacoom, 2; Tacoma, 133.

—In order to draw a crowd to a Whatcom church, a wedding was announced every week for a month of Sundays. The religious sentiment of our neighbors across the Sound must be away down below zero when a chromo of this kind has to be thrown in to entice them to the house of praise and prayer.

—A meeting of the Victoria Cricket Club was held yesterday afternoon. Amongst those present were Sir Matthew B. Begbie, Lieut. Governor Cornwall, and many of our leading cricketers. Messrs. Boville and Campbell were appointed a committee to make a selection of grounds for games and arrange for subscriptions.

SUPREME COURT.

(Before Sir M. B. Begbie, C.J., & Hon. Justices Gray and McCreight.)

Re Hibbs, extradition.—This was an application to make absolute a rule nisi granted by the Chief Justice to show cause why a writ of habeas corpus should not issue. Mr. Walls objected to the whole proceedings as the rule nisi had been granted without any evidence whatever, and he only appeared out of deference to the court having been served at 5.30 last evening and the rule was not addressed to either the prosecutor or the committing judge. After considerable discussion the application was adjourned until Monday, next week. Mr. Theo. Davie, for applicant, and Mr. Hett and Mr. Walls for the United States government.

The Triumph at Practice.

The Queen of the Pacific passed the man-of-war Triumph on Monday morning, about one hundred and fifty miles southwest of Cape Flattery. She was at the time practising her guns, and the Queen slackened speed for a time to witness the manœuvres and the marksmanship of her gunners. The Triumph will probably arrive at Esquimalt this afternoon.

The Triumph arrived in Royal roads at 3 o'clock this afternoon. She came in under steam, and was received with a salute from the Constance.

The Late Mrs. Ennor.

The body of the late Mrs. Ennor, who died on the 15th at San Francisco, arrived on the Queen to-day, and will be interred at Ross Bay cemetery, of which due notice will be given. The deceased was a resident of Victoria for many years, and has numerous relatives and friends still in the province. She had reached the patriarchal age of 77 years.

The Hibbs Case.

The St. Paul Pioneer Press, in referring to the Hibbs case, says: Judge Crease, of the Supreme Court of British Columbia, doesn't intend to assist in making that locality a refuge for the thieves and rascals of this country if he can help it. It would be a good thing if there were more judges like this one across the Canadian border and further to the eastward.

Music Lessons.

A young lady who has had the advantage of receiving instruction in music from Professor Oliver King, (Pianist to Princess Louise) is desirous of obtaining a limited number of music pupils, and will give lessons at her residence, or if desired at their own homes. For particulars enquire at M. W. Waitt's music store.

Filigree Jewelry.

We have examined some of this work at J. Dansenville & Co.'s, Fort street, and find it really remarkable how threads of silver so fine can be spun and made to form such beautiful styles of separable for the ladies. An early call will secure a choice selection.

Don't fill the system with quinine in the effort to prevent or cure Fever and Ague. Ayer's Ague Cure is a far more potent preventive and remedy, with the advantage of leaving in the body no germs to produce dizziness, deafness, headaches, or other disorders. The proprietors warrant it.

Young old and middle-aged, all experience the wonderful beneficial effects of Ayer's Sarsaparilla. Young children suffering from sore eyes, sore ears, scald-head, or with an scrofulous or syphilitic taint, may be made healthy and strong by its use.

The celebrated BASS' BURTON ALE, the best in the world, at FELL & CO.'s.

SUDDEN DEATH AT COMOX.

An Eastern Man Dies Very Suddenly —Cause Unknown.

Particulars have been received from Comox of a sudden death which took place in that locality about the middle of last month. J. Mundell came from Manitoba about a year ago and after remaining a short time went back. In June last he returned and about the 15th of the present month he went to Comox, where he was thinking of purchasing an interest in the trading business of Mr. John McPhee. On Saturday night he went to bed in the latter gentleman's house, in apparently good health and in the morning it was found that he was a corpse. During the night he was heard to give a groan, but nothing was then thought to be the matter. In his pocket were found a bank book, showing a deposit of $2000 in the Savings Bank, and an insurance policy for $10). The deceased's wife and family are now visiting in Manitoba, and are expected to follow him to this province. It is said that no person here is acquainted with their address and consequently there is a difficulty about giving them information. The case seems to be a more than usually sad one.

The Kellogg Concert.

This world-renowned vocalist will appear in Philharmonic Hall on Saturday evening. The press everywhere speaks in the highest terms of praise of the performance. The following is a sample notice: "The Kellogg concert last night was one of the most successful events that has lately transpired in this city. The audience was very large and almost exclusively composed of Hipon people. This speaks volumes for their good taste and culture. The different numbers on the programme were rendered in a highly satisfactory manner, every number after the first being vociferously encored. The ladies and gentlemen composing the company did everything in their power to please their auditors. Miss Kellogg's singing was grand and charmed all. Mr. Adolf Close is certainly a master of the piano, and his playing on this occasion was delightful. Miss Groves has a beautiful voice and her numbers were rendered with great feeling and pathos. Mr. Whitney Mockridge, tenor, captivated everyone, and he was called and recalled. Mr. Ivan E. Morawski, basso, succeeded in convincing all that he possessed a fine cultivated voice, while Miss Ollie Torbett, violinist, (only 18 years old) took her audience captives and did with them as she pleased. She was called, called and recalled. Taken all in all it was by far the finest concert ever in the city and was patronized by a big house composed of the very best people."

Robinson's Circus.

John Robinson's mammoth circus arrived this morning by the steamers Olympian and Emma Hayward, and as soon as the wagons and animals were disembarked they proceeded to the vacant ground north of St. John's church, where the large tents are now erected. This is one of the best exhibitions under canvas now on the road, and the proprietor can claim and with good reason, that it is the "greatest show on earth," although, strange to say, there are at least half a dozen that claim that distinguished pre-eminence. No doubt the transhipment per steamer to Victoria will interfere slightly with the otherwise perfect arrangements of this great railway exhibition, but nothing we are informed by Mr. Lowlow has been left at Tacoma that is indispensible to the exhibitions. The large wagons used in the street parade were not brought over, but all the animals and everything in connection with the exhibition proper is here. The enormous tents will be crowded to-night, and those who go to-night will be as well pleased that they will go again to-morrow.

Charged with Murder.

Richard A. Proctor, who is now in gaol on the charge of having murdered a companion named Burke, in whose company he had left the city several months ago on a cruise along the northern coast in a sloop, again appeared before Messrs. Rithet and Dalby, Justices of the Peace, this morning. At the request of Supt. Bloomfield the case was remanded until Friday next, or until after the arrival of the Barbara Boscowitz, by which, it is expected, news will arrive that may throw some additional light on what now has a very suspicious and mysterious look. Proctor and a companion returned to the city without Burke, the owner of the sloop, and not only brought the sloop back, but were in possession of a considerable sum of money, which it is known they did not have on leaving. The prisoner is a young man of good appearance, and altogether unlike a person who would be guilty of so terrible a crime.

The Wallack Company.

No doubt the most important event of the theatrical season will be the first appearance in this city of the famous Wallack Theatre Company direct from Wallack's Theatre New York City. It is within realms of truth to assert that no important attraction as Wallack's should crowd the Philharmonic Hall each evening during their short visit in Victoria. The company will produce only such great plays which have attained the highest success at their home theatre in New York. On Monday evening Henry Guy Carlton's powerful four act play "Victor Durand" will be presented to be followed on Tuesday evening with Robert Buchanan's beautiful play "Lady Clare," and the great success of Wallack's last season entitled "Motha" will close the company's engagement here, the sale of seats begins at Waitt's book store Thursday morning.

Sir Charles Tupper Coming to British Columbia.

Sir Charles Tupper is the guest of Mr. Andrew Robertson, Montreal. He has had a consultation with Sir John Macdonald of Cacouna. It is his intention to proceed across the continent via the Canadian Pacific to British Columbia for the double purpose of seeing the country and the railway that he has done so much to promote and advance the interests of, and at the same time to work up the different sections, and especially the Pacific province, in the promotion of the great national exhibition which he has so much at heart. Sir Charles is looking well, seems to be in perfect health, and inspired with the same love of country and admiration for Canada that has always characterized him. On his return from the Pacific it is his intention to spend some time in the eastern provinces, where his presence will be warmly welcomed.

The Amities are Entertained.

The Amity Base Ballists were tendered a supper at the Holton House, Portland, on Sunday evening. Invitations were also extended to the members of the several city clubs and were numerously attended. A number of toasts were proposed and happily responded to, the Portlanders being pleased to say that the Victorians were by far the jollest crowd of ball players who have got ashore this city.

"Gather, Gather, Gather."

The gathering of the clans of New Westminster on Wednesday the 26 Sept. will be represented by a delegation from this city. The C. P. R. Company have decided to carry passengers to and from Victoria to New Westminster on that occasion for $2. Capt. Irving expects to have a full load for the Yosemite next Wednesday morning.

POLICE COURT.

(Before Major Rithet, and Wm. Dalby, J.P.)

Jack, A Bella Coola Indian, in possession of an intoxicant, Mr. Smith appeared for prisoner and at first pleaded "guilty" for the purpose of giving the officers an opportunity to find the man who supplied the liquor. This plea was afterwards withdrawn and one of "guilty" entered, and the case was remanded until to-morrow.

STOLEN PROPERTY.

Ah Sue, in unlawful possession of a clock, valued at $2, knowing the same to be stolen. Prisoner said he had got the clock from a Chinaman to pawn, and did not know it had been stolen. At the request of the Superintendent the case was remanded until to-morrow to procure evidence for the prosecution.

CARRYING FIRE ARMS.

Frank M. York, on remand, charged with being in possession of a concealed weapon. Defendant did not appear and bail was cachetted.

NON-ATTENDANCE AT DRILL.

F. Newbury and Michael de Candia refusing to attend drill without any valid excuse. Capt. Green said the object of the prosecution was not to punish the defendants; it was rather for the purpose of warning them that they could not act in this way with impunity. Mr. Newbury said that he was employed in the post-office until half-past eight and sometime till nine o'clock, and it was frequently impossible for him to be present. Mr. de Candia said it was impossible for him to attend drill, as he was now engaged in the store until nine o'clock. Capt. Green said the last named had served under Garibaldi, and has one or two medals, and because he was not allowed to wear them when in British uniform, he felt piqued, and for that reason would not attend. The Magistrate cautioned the defendants and volunteers generally, that they could not refuse to attend drill unless they had a lawful excuse, and promised to punish any one found doing so in future.

A CHINESE ASSAULT.

Ah Suey, assaulting and wounding John W. Nettleton. Nettleton testified that in going home on Sunday night, between 12 and 1 o'clock, prisoner came out of a house, having a hatchet in his hand, with which he struck him on the head several times, inflicting two or three wounds. He then fell to the ground and knew nothing more about the assault. Officer McLaren deposed that about half-past one on Monday morning, he found the prisoner on top of the prosecutor, who was prostrate on Cormorant street. Nettleton was bleeding from the head; arrested the Chinaman, and found in his possession a piece of iron, covered with blood. Mayor Rithet said the charge had been proved, and sentenced prisoner to six months' imprisonment with hard labor.

BOY THIEVES.

Charles Whittet and Henry Mordaunt, stealing thirty grain sacks from the stables of the Union Truck and Dray Co. Mr. Croft, manager, said that for a long time past, grain sacks have been taken from the stables, in quantities of from one hundred to twenty at a time. Failing to discover the thief, he notified the police, and yesterday the two boys were found with these sacks in their possession. On account of the extreme youth of the prisoners, he had no desire to prosecute them, and asked the court to administer a reprimand and let them go. They were ordered back to jail, the superintendent being instructed to release them upon their confessing to whom they had sold the stolen property.

John W. Nettleton, drunk; charge withdrawn.

PERSONAL MENTION.

Mr. James Orr, M. P. P., is in the city.

Capt. L. M. Starr, Portland, is at the Driard.

Mr. C. D. Rand arrived home to-day from a trip to Portland.

Dr. Hannington is in the city on his way east.

Mr. J. D. Jenkins, of Nanaimo, is in the city.

Mr. Jameson, C. E., of Glasgow, Scotland, was a passenger on the Slope to-day.

Mr. Curtis and wife of Portland; Mr. and Mrs. McLean of England arrived by the Slope to-day.

H. J. Morrison, California; M. O. McKinnon, Seattle; G. O. Haas, Texas; are at the Occidental.

Bishop Paddock, accompanied by the Misses Paddock, arrived by the Olympian this forenoon.

A. W. Ross, M. P., who came overland via the C. P. R. and Mrs. Ross, were passengers to-day by the Slope.

Messrs. Wm. McColl and E. S. Scoullar, of New Westminster, are in the city. They are here to take part in the shooting match.

Mr. Stephens, brother of Mr. George Stephens, president of the C. P. R., was a passenger from the mainland to-day. He came overland on the C. P. R.

The health of Mrs. Peter McQuade is still a cause of anxiety to her relatives and friends. We join with them in hoping for her speedy recovery.

Dr. W. R. Cloness, Sacramento, Cal.; W. H. Holm, Oakland, and C. H. Keesbin, Wallack Theatre Co., are at the Driard.

Mr. and Mrs. John Kinsman have reached their old home in Ontario. When last heard from they were in the Queen City, Toronto.

We are glad to see our young friend, Mr. Wm. Higgins, again able to be around, after a protracted illness. His sweetheart has been considerably reduced, but in a few weeks more he will, we hope, be himself again.

Mr. M. B. Atkinson and Miss Moore, both recently of this city, will be married in San Francisco to-morrow evening. They will in future make Montreal their home, and will proceed thither immediately after the nuptials have been celebrated. The congratulations of a host of friends in Victoria, and best wishes for their future happiness will go with them.

The following arrived by the Olympian to-day: Rev D H Reid, J McGarrahan, J A Wiley, G McDonald, J J Randolf, F Shakespeare, A Carster, F Simpson, W McEachren, Bishop Paddock and two daughters, Miss Paddock, M B Paddock, C D Rand, Miss Belton, Miss Woodruff, Miss Kinzelo, S Anderson, T Cann, T Cameron, W Co 3zld, W Alwood, J Smith, G H Maynard, A Wentborn, A W Waitt, T Ellis, O Chipp, H Babben, Mrs Brown, Mrs Milchrist, Miss Bell, A McIntyre, C Cushing, D F Fee, T Yiedeman, Mrs D F Fee, F Carne, G Steel, O Marquard, Mrs Gowan, Miss Gowan, H Gowan, Jr, C F Gowan, H B Yiedeman, T Chadwick, C F Jones, T Madigan, Mrs Heathcom, Mrs Clark, W Heathorn and wife, A McLean, G Borthwick, A Erskine, G A McCandless, A Borthwick, G Russell, W S Jameson, W Fairbairn, C H Halland, Mrs D F Fee, F Carne, G Steel, O Marquard, A M Green, O C Hastings, A J McLeod, F Martin, G Shelly, E C Baker, L G McQuade, M McKay, C A Biggar, W Jamieson, M O'Neil, A Peterson, A Olsen, P Peterson, Dr. A. J. Dansenville & Co., Fort Street, Jewelers, have just received a large assortment of Mexican Filigree Jewelry. This invoice will be sold at reduced rates.

VOICE OF THE PEOPLE.

The Point Ellice Bridge Job.

To the Editor of The Times:

Sir,—The Colonist tries to make black white, so far as the contract for the above bridge is concerned; and, as usual shows only one side of the transaction. Will the Colonist please add to the foreign contractors' price the amount allowed him for using old drawings, extras, and for sundries that will never be made public, etc? Also, will it take into consideration that if the job had been trusted to one of our own people, who had his interests all centered here, the amount made out of the work would have been invested here in the shape of a new residence, or some substantial improvement, to beautify our city, and as a lasting monument to a wise and judicious government that fosters home industries and does everything in its power for our country. Now, if you desire to see where the profit made by the contractor goes one would need to visit a foreign port, which will be enriched by the folly of our unwise and irresponsible British Columbia government.

Progress.

MARINE NOTES.

The North Pacific was towed to Seattle on Monday.

The Queen of the Pacific arrived early this morning with a large freight list and a number of passengers.

The British bark Hermonia, Captain Jones, from Liverpool, January 18th, with a general cargo consigned to Welch, Rithet & Co., arrived in Royal roads yesterday afternoon.

The Olympian arrived at 10 a. m., and the Emma Hayward shortly after, having on board John Robinson's circus plant and the people connected with the mammoth exhibition.

On August 9th the British bark Cambrian, from Portland, Or., while entering Liverpool, collided with the British ship Elizabeth Nicholson, from Manila, and both were badly damaged, the Cambrian losing her bowsprit and having her plating badly damaged forward.

The Umatilla has been moved into the Oil Works wharf at San Francisco, where she will remain until the iron with which she is to be repaired arrives from the east. It is said that the contract has already been made at a figure approaching 200,000, and it will require about twenty days to do the work.

According to the Bureau Veritas sixty-four sailing vessels of all nations were totally lost in June. Of the number, twenty-seven were British, ten German, eight Norwegian. The total tonnage (net) of the lost fleet was 18,536. Of steamers there were fifteen lost, their total net tonnage being 18,401. Of this number, eleven were British.

$1000 Reward.

One thousand dollars reward is offered for the recovery of the body of Dr. Richard C. Brandreth, dead or alive. His age is 34 years, 5 ft. 7¼ inches in height, slim built, black hair and scant mustache, dark complexion (sallow), dark-brown eyes, sickly appearance, long prominent nose. Wore a hunting case Waltham gold watch, No. 6801, 18 ct., nickle movement, E. T., with a wedding ring engraved inside, Aug. 23, 1881, also a peculiar signet ring. A photograph of the doctor may be seen at the U. S. Consulate in this city, and if he is in this city, or province, there is a good chance for some person to make one thousand dollars.
